Reproducible Quantitative Data Science
Working toward a reproducible PhD

Teachers

Cyril Pernet - NRU,Rigshopitalet
NeuroImaging-NeuroInformatics

Melanie Ganz - DIKU+ NRU, RH
Medical imaging - NeuroImaging

Robert Oostenveld
Donders Inst, Radboud, NL
Karolinska Inst, SE
MEG and EEG methods

Rules of engagement
- you can stop us anytime to ask questions
- whenever a gray rectangle appears, an activity/answer is needed, often in small groups (say 3 people)
- group yourselves now for the rest of the morning

Question box

You …

Please head over to Padlet and type a very short bio for yourself.

Material

https://github.com/CPernet/ReproducibleQuantitativeDataScience

pdf of slides will be published so you can access it all (but we want you to play along so you cannot see the answers to questions yet)

Ice breaker → https://tinyurl.com/ydfnc3uk

What is your perception of reproducibility <u>in one word</u>

Join padlet and write your answer - you can also vote for each other answer
